## **UFB Group Preparing for Space Camp**

Six students are preparing to leave September 25<sup>th</sup> for Huntsville, Alabama where they will have a very unique and exciting learning adventure at Space Camp for the Blind. The regular Space Camp program in Huntsville for this one week is turned into a unique setting for blind and visually impaired students from around the world to come and experience the facility with adapted equipment. During the week students will experience simulators, plan and carry-out simulated space missions, build and launch rockets and gain a much greater comprehension of space and the space program.

Kari Fredrickson will be chaperoning the group and we thank Kari along with the parents and many others who have worked hard to raise the funds to make attending Space Camp for the Blind a reality.
