NEWS

We will be having Lego tournament in Holladay Lion's Recreation Center on January 7th, 8:00-3:00. We hope that you can come and support us AND see what LEGO tournament looks like. Our team, Beegos is doing great!!

There are three parts to the tournament. The first is a Robot Game. We had passed some of obstacles and making some progress on our project! There will be two people in corner start robot to pass obstacles and get points for it every time. Sound easy huh? Try it in 2 mins and 30 seconds!! That is hard! But we are doing great with that one.

The second part is a project about food safety. Our project is about cantaloupe. We had sent out the email that did wash their cantaloupe with vegetable brush or just water or not at all. We all learned that most people didn't wash their cantaloupe. So that is reason why so many people died from listeria. So we want to suggest you to SCRUB your cantaloupe WITH vegetable brush to eat healthy and safe. If you don't, cantaloupe has a lot bacteria and it goes into your mouth!!! It causes you get sick and died from Listeria.

The third part is teamwork. This is about teamwork obviously. We have to show the judges that we all work together in team and no one is left out. We will be given a test and the judges will observe what we do and how we are talking to each other. We are doing well with teamwork but the problem, we have two Lego class so it is very hard for us to get together and learn how to work it out.

Riddles

A Teacher answered the riddle from last month AND still no students!!!!
Come on guys! TEACHERs VS STUDENTs.... 2-0!!!! Don't let teachers savor their candy and brains!!

Last month's answers: River, two

December Riddles:

If a rooster laid a brown egg and a white egg what kind of chicks would hatch?

Mr. Whimpy was terrified of the dark. When he went to bed he would flip off the light switch on the far wall then tear across the room to bed 10 feet away. However the other day he flipped the switch walked slowly to his bed and climbed in before the room went dark. He only used his finger to switch off the light. How did he manage this brave feat?
